

The first Examination of English

Instagram

Instagram is an online mobile photo-sharing, video-sharing, and social networking service that lets its users to take pictures and videos, and share them either publicly or privately on the application, as well as through a lot of other social networking platforms, such as Facebook, Twitter, Tumblr.

Instagram was created by Kevin Systrom and Mike Krieger, and launched in October 2010 as a free mobile application. The service rapidly progresses popularity, with over 100 million active users as of April 2012 and over 300 million as of December 2014 Instagram is distributed through the Apple App Store and Google Play.

Instagram is a combination of two words "Instant Telegram". When Kevin and Mike were asked about the name of their creative mobile application they said:"When we were kids we loved playing around with cameras, we loved how all the old Polaroid cameras marketed themselves as "instant". We also felt that the pictures people were taking were kind of like *telegrams* in that they got sent over the wire to others so we figured why not combine the two? ". In this case, "instagram" means an instant picture.

Adapted from :<http://www.qoura.com>

A-Reading & interpreting :

Dear Simon
My family and I would like to invite you to spend the spring holidays at our spring house up the hill. It is a beautiful house surrounded with flowers and trees. I'm sure you'll like it and enjoy yourself with us.
Best regards /Kate
